

# Deckle Board

**The best running and most operator friendly deckle board on the market**

Coldwater deckle boards help control and contain the stock as it exits the headbox.

## FEATURES and BENEFITS

- Hinged design - Adjustable in and out of stock stream
- Decreases edge waves or other disturbances created by the headbox
- Improved CD basis weight, moisture, and TSO angle profiles
- Drip shower - Keeps unit running clean
- 90 degree Teflon insert
  - Perfect seal to wire
  - Longer wear life
  - Easy on forming fabrics
  - "on the run" adjustability
  - No tearing, no fiber build up
- Stainless steel micro adjustable stands with optional quick disconnect mounting for fast & easy removal and reinstallation during wire changes
- Rugged construction - All stainless steel components
