

Edge Spreader Deckle Board

**The best running
and most
operator friendly
deckle board on
the market**

Coldwater deckle boards help control the stock as it exits the headbox.

- Can start with a cheeking piece extension
- Hinged design - Adjustable in and out of stock stream
- Drip shower - Keeps unit running clean
- Rugged construction - All stainless steel components
- 90 degree Teflon insert
 - Excellent seal to wire
 - Longer wear life
 - Easy on forming fabrics
 - "on the run" adjustability
 - No tearing, no fiber build up
- Stainless steel micro adjustable stands with optional quick disconnect mounting for fast & easy removal and reinstallation during wire changes
- Decreases edge waves or other disturbances created by the headbox
- Improved CD basis weight, moisture, and TSO angle profiles

 **COLDWATER**
