

Classic Rubber Graphite / Joseal™ Suction Roll Seal Strips

Our technicians can custom fit the seals to the roll. Custom fit seals can greatly improve running intervals (2 years or more) and significantly reduce horsepower consumption (up to 100 amps less per roll).

Coldwater is the world's largest suction roll sealing strip manufacturer. Our Classic Rubber Graphite / Joseal™ material offers the security and piece of mind of thousands of successful operations over many years.

- Successfully run in more suction rolls than any other product
- Industry standard for 25 years
- Homogeneous, will not delaminate
- One piece to any length or segmented strips
- Moisture and chemical resistant
- Self-lubricating
- Seats quickly to rough shells
- Available in complete kits including seal strips, silencers, deckles, load tubes and even holders
